30 March 1978

MEMORANDUM FOR: Office of Legislative Counsel

STAT

ATTENTION :

FROM :

Assistant General Counsel

SUBJECT : Comments on CSC Amendments to H.R. 4620

1. I have reviewed the subject materials. I agree that the changes which CSC proposes would make this bill acceptable to the Agency. Rather than the Civil Service Commission prescribing the regulations under which the bill would be implemented, that function is now placed on the President or his designee.

2. I agree with you that something of an anomaly exists concerning the coverage of this Agency by the bill as it is presently drawn. I believe this Agency is included in the definition of "agency" at Subsection 5948(g)(2), but our physicians are not included in the definition of "Government physician" at Subsection 5948(g)(1). This could be corrected by making a specific reference to physicians employed by this Agency, in the latter subsection.
